

# INTERNATIONAL MINERS' MISSION

The third Miners Mission conference  
at Maranata Baptist Church in Targu Jiu, Romania.

Assistant Pastor, Marian Popescu, who helped organise the conference, gives us a short report.

Dear Brothers and Sisters,

Today we have had the third stage of the miners' conference. We want to thank you for your support and prayers and also, we pray as Lord bless you and reward you for this! The conference was developing according the next schedule:

**Session 1** '*The origin of the universe and life*'.

In this session we had praise and worship in the first part, and then each of those who are implied in this program made a short presentation of their own work. Vali Bereznicu had both presentation of his work and a presentation of the history of the Miners' Mission.

Also, I and sister Sanda had studies about the creationism theme – sister Sanda in the context of the Biochemistry, and I

in the domain of the Physique. Then we had a break with tea,

coffee and sandwiches.

**Session 2** was dedicated for evangelization with the theme '*Back to God*' in which it was invited a missionary from Arad, and brother Cornel closed the conference. We believe it was a blessed day and we pray God leave His blessing above all to

those who participated.

We thank you again for your love and support! God bless you!  
Love in Christ, Marian.
